The Navigator Series Shuttlewagon stands alone as the highest capacity railcar mover in North America. It defines railcar switching operations for today's needs. Powerful, versatile and dependable, it incorporates the most advanced technologies available to ensure safety and reliability are never compromised.

FEATURES

Wide range AAR sliding couplers are air released and hydraulically positioned. Improves pulling performance in curves and grades.

Powerful air knife increases capacities up to 50% in adverse weather.

INDUSTRY LEADING 2 YEAR/4,000 HR WARRANTY

NVX5025

Height: 143.5"/3,645mm
Width: 120"/3,048mm
Length: 296"/7,518mm
(To end of couplers)
Wheelbase: 168"/4,267mm
Weight: 61,000lbs/27,669kg

TRACTIVE EFFORT:

38,000 lbs (169kN) single coupled without weight transfer to loaded or empty railcar.

CUMMINS QSB 6.7 US EPA TIER 3 (electronic) 215 HP @ 2,500RPM

*Also available in Tier 4 Final

AAR Standard 56.5"/1,435mm

Two independent drive wheel trucks supported on rotating bearings with eight 16" AAR profile guide wheels. ABS & traction assist provide more control while reducing maintenance cost.

Pull out sander boxes with wide mouth lids for easy loading. Air activated sanders for smooth dispensing.

180 degree console with color multifunction display. Dual four way air suspension operator seats for either side on-rail operator control.

Standard Features:

- Transmission: Powershift type
