

Advanced Tie Plate Inserter

INNOVATIVE DESIGNS FROM RACINE RAILROAD PRODUCTS

RRP Design

The Advanced Tie Plate Inserter features a fully automatic plate insert program to simultaneously insert both plates with one trigger.

This feature increases production and reduces operator wrist fatigue as compared to the more manual method in past machines models.

Innovative Technology

- Programmable MD4 controlled automation has faster & smoother cycle times than previous RRP machines.
- Onboard electrical system diagnostics that simplify troubleshooting and lessen downtime.
- Remote program updates and remote troubleshooting with built-in telematics available.

Versatile

- In-cab adjustments align the workhead to accommodate rail height.

Easy Set-up and Operation

- Easy touchscreen controls for workhead adjustments are made inside the cab from the operator seat, saving time while keeping the operator in a safe environment.
- Auto and Manual operation modes.
- Reliable workhead design provides years of trouble-free service.
