

# Dual Clip Applicator / Remover

INNOVATIVE DESIGNS FROM RACINE RAILROAD PRODUCTS

## RRP Design

The Dual Clip Applicator / Remover is a dual workhead machine designed to apply 4 pre-set clips to both rails, or 2 pre-set clips to either rail, or remove e-Clips on one or two rails.

The workhead design allows the removal of clips with a simple tooling change.

## Easy Set-up and Operation

- Easy touchscreen controls for workhead adjustments are made inside the cab from the operator seat, saving time while keeping the operator in a safe environment.
- Auto and Manual operation modes.
- Reliable workhead design provides years of trouble-free service.

## Versatile

- In-cab adjustments align the workhead to accommodate rail height.

## Innovative Technology

- Programmable MD4 controlled automation has faster & smoother cycle times than previous RRP machines.
- Onboard electrical system diagnostics that simplify troubleshooting and lessen downtime.
- Remote program updates and remote troubleshooting with built-in telematics available.

Operator Station with ergonomic seat & joystick controls.
