

RELAM TIE CRANE CARTS

OVERVIEW

These tie carts have 2-15/16 axles and cast steel wheels. The carts have four wheel air brakes standard. The carts are set up with gland hand air brake connections and quick disconnect air line connections on opposite ends of cart. The all welded, reinforced construction of the mainframe supports 10,000 pounds capacity improving the efficiency of the tie gang. The units are equipped with tow bars and storage end arms when delivered to the job site.
